

**Required Report:** Required - Public Distribution

**Date:** January 27,2021

**Report Number:** ID2020-0045

**Report Name:** Food and Agricultural Import Regulations and Standards  
Export Certificate Report

**Country:** Indonesia

**Post:** Jakarta

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** Titi Rahayu

**Approved By:** Garrett McDonald

**Report Highlights:**

This report supplements information provided in the 2020 Indonesia FAIRS Country Report and updates the 2019 Indonesian FAIRS Export Certificate Report.

**Disclaimer:**

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Jakarta, Indonesia for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate because policies have changed since its preparation, or clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their Indonesian customers (importer), who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

## EXECUTIVE SUMMARY

The FAIRS Export Certificate Report lists the major export certificates and other requirements expected by the Government of Indonesia (GOI) from U.S. exporters of food and agricultural products.

Information has been updated in Section III on fresh fruit and vegetable, veterinary drugs; Section IV, Section V, and Appendix.

## SECTION I. LIST OF MAJOR EXPORT CERTIFICATES REQUIRED

| PRODUCTS  | TITLE OF CERTIFICATES   | ATTESTATION REQUIRED ON CERTIFICATE           | PURPOSE                           | REQUESTING MINISTRY                           |
|---|---|---|-----------------------------------|---|
| Bovine genetics   | Certificate of Health and Origin  | Please refer to Section III                   | Animal health                     | Ministry of Agriculture                       |
| Live animals  | Certificate of Health and Origin  | Please refer to Section III                   | Animal health                     | Ministry of Agriculture                       |
| Animal by-products  | Certificate of Health and Origin  | Please refer to Section III                   | Animal health                     | Ministry of Agriculture                       |
| Pet food  | Certificate of Processing<br>Certificate of Origin<br>Certificate of Analysis<br>Veterinary Health Certificate. | Please refer to Section III                   | Animal health                     | Ministry of Agriculture                       |
| Fresh and frozen meat and meat products (from poultry, cattle, and other livestock) | Sanitary Health Certificate   | Please refer to Section III                   | Food safety                       | Ministry of Agriculture                       |
|   | Halal certificate   | Product Produced According to Halal Standards | Product Meets Religious Standards | Ministry of Religious Affairs                 |
| Dairy products and processed egg *  | Sanitary Health Certificate<br>Certificate of Origin<br>Certificate of Analysis                                 | Please refer to Section III                   | Food safety                       | Ministry of Agriculture                       |
|   | Certificate of Free Sale  | Freely sold in the exporting country          |                                   | National Agency of Drug & Food Control (BPOM) |
|   | Halal certificate   | Product Produced According to Halal Standards | Product Meets Religious Standards | Ministry of Religious Affairs                 |

|  |   |   |                                   |   |
|--|---|---|-----------------------------------|---|
| Processed food products                                | Health Certificate  | Fit/safe for human consumption                    | Food safety                       | National Agency of Drug & Food Control (BPOM) |
|  | Certificate of Free Sale  | Freely sold in the exporting country              |                                   |   |
|  | Halal Certificate   | Product Produced According to Halal Standards     | Product Meets Religious Standards | Ministry of Religious Affairs                 |
| Plant Products   | Phytosanitary Certificate   | Please refer to Section III                       | Plant safety                      | Ministry of Agriculture                       |
| Fresh Products and Frozen Products of Fish and Seafood | Health Certificate for fish quarantine and/or Health Certificate for product quality. | Uninfected by quarantine fish diseases and pests. | Fish Quarantine                   | Ministry of Marine Affairs and Fisheries      |
|  | Certificate of Quarantine Installation  |   |                                   |   |
|  | Catch Certificate   |   |                                   |   |
| Food Additives   | Health Certificate  | Fit/safe for human consumption                    | Food Safety                       | National Agency of Drug & Food Control (BPOM) |
|  | Certificate of Free Sale<br>Certificate of Analysis                                   | Freely sold in the exporting country              |                                   |   |
|  | Halal Certificate   | Product Produced According to Halal Standards     | Product Meets Religious Standards | Ministry of Religious Affairs                 |
| Alcoholic Beverages                                    | Certificate of Free Sale  | Freely sold in the exporting country              | Food Safety                       | National Agency of Drug & Food Control (BPOM) |

Note: \* Ministry of Agriculture requires Sanitary Health Certificate; BPOM requires Health Certificate or Certificate of Free Sale

## SECTION II. PURPOSE OF SPECIFIC EXPORT CERTIFICATES

Please refer to the “Purpose” column in the matrix under Section I.

## SECTION III. SPECIFIC ATTESTATION REQUIRED ON THE EXPORT CERTIFICATE

Details of required export certificate attestations for the following products are available in GAIN Report [ID1046](#):

- Bovine genetics (frozen embryos; frozen semen).
- Live animals (horses; day old chicks; breeding pigs; breeding cattle/buffalo/goats/sheep, and wild animals (Bovidae family)).
- Animal products (pet food; meat & bone meal, blood products of bovine, ovine, or caprine origin, poultry by product meal/feather meal of avian origin; poultry by product meal/feather meal of avian origin; wool, hair, bristles; duck down/duck feather/goose feather intended for industrial use; raw hide, skin of animal origin (bovine, ovine, caprine, swine, horse, rabbit, reptile, wild animal, fish); poultry hatching eggs; bovine bone derived gelatin, bovine hide derived gelatin);
- Meat and meat products (beef, beef offal and beef products; poultry meat; poultry products; milk, milk powder, milk products and cream).

FSIS export certificates for meat and meat products should contain the following information in the remarks section:

- The number from the Ministry of Agriculture’s (MOA) import recommendation (see MOA regulation No. 42/2019)
- The full sixteen-digit number from the Ministry of Trade’s import permit (see Ministry of Trade regulation No. 29/2019)
- The issuance date of the import permit.

For more info on documentation requirements of exporting meat and meat products to Indonesia please refer to the [FSIS Export Library](#).

### Fresh Fruit and Vegetables

- The plant quarantine service from the country of origin and transit country must issue phytosanitary certificates.
- Fresh fruit and vegetables from California do not need pre-treatment. However, the additional declaration of the phytosanitary certificate for California horticultural products must state that the imported fruits/vegetables have been produced within a pest infestation free area.
- To date only production areas in the State of California have been declared by the GOI to be free from *Ceratitis capitata*, *Anastrepha fraterculus*, *Anastrepha ludens*, *Anastrepha obliqua*, *Anastrepha serpentina*, *Anastrepha suspensa*, *Rhagoletis cingulate*, *Rhagoletis fausta*, and *Rhagoletis pomonella* infestation. Fruits and vegetables from other states must be treated prior to shipment (including fumigation, vapor heat treatment (VHT), and irradiation) or in-transit cold treatment with temperatures appropriate for fresh fruit and vegetables, whenever the commodities are originating from the production area where the regulated quarantine fruit flies are known to have occurred. The

approved treatment shall be explained in the Phytosanitary Certificate under the Treatment Information column. For in-transit cold treatment, a temperature record must be attached to the Phytosanitary Certificate. A list of fresh fruits and vegetables, fruit fly names, and treatments can be viewed in the appendix of MOA regulation No. 42/2012.

- Fruit and vegetables must be packed in carton boxes and transported as containerized cargo.

On December 1, 2020 the GOI extended the recognition of the U.S. food safety control system of fresh foods of plant origin (FFPO) through MOA decree No. 771/KPTS/KR.050/M/12/2020. This came into effect on January 5, 2021 and is valid for another 3 years. FFPO recognition simplifies the export process, eliminating the need for laboratory testing for exports of 88 U.S. fruits, vegetables, and other plant origin products. In addition, only FFPO products that originate in countries that have food safety systems recognition or registered labs by Indonesia can enter the country through the port of Jakarta. A full list of these commodities, as described in MOA decree No. 771/2020, can be seen in the appendix below.

### **Fish and Fishery Products**

Under the Ministry of Marine Affairs and Fisheries (MMAF)'s regulation No. 11/2019, the GOI has issued requirements for importing fish and fisheries products. A health certificate for fish and fisheries products and a certificate of origin are required, along with other certificates, such as: copy of quarantine installation certificate and catch certificate. A sample of health certificate can be seen at the appendix below.

Please also see Appendix I in GAIN Report [ID1456](#) for samples covering the requirements for the following products:

- Sample "Certificate of Poultry Meal and Feather Meal of Avian Origin"
- Sample "Certificate of Origin for Dairy Products"
- Sample "Certificate of Quality of Poultry by Product Meal"
- Sample "Sanitary Certificate for Dairy Products"
- Sample "Health Certificate of Pet Food"
- Sample "Health Certificate of Egg Products"
- Sample "Statement Letter of Ineligible Phytosanitary Certificate"
- Sample "Export Certificate of Processed Plant Products"
- Sample "Halal Export Certificate"
- Example of Prior Notice
- Sample "Declaration of Conformity and Table of Product List"
- Sample "State Apostile"
- Sample "Letter of Authorization"
- Sample "Fish Certificate of Origin"

Appendix I in this report shows samples for the following products:

- Sample "Meat and Poultry Export Certificate of Wholesomeness"
- Sample "Phytosanitary Certificate for California Horticultural Products"
- Sample "Phytosanitary Certificate of Horticultural Products from States other than California"
- Sample "Health Certificate of Fish and Fishery Products"

Sample “FDA’s Certificate to A Foreign Government”

Table 11. Indonesia: List of Recognized U.S. Fresh Foods of Plant Origin

## SECTION IV. GOVERNMENT CERTIFICATE LEGAL ENTRY REQUIREMENTS

1. Health certificates for products of animal origin:
  - must accompany the commodities at the time of entry. If the commodities are transported by vessel, the certificate should be sent earlier to the quarantine officer at the port of entry;
  - must be issued by a veterinarian authorized by the U.S. Department of Agriculture or endorsed by an APHIS/Veterinary Services (VS) veterinarian;
  - can be applied to only one shipment;
  - must include the full sixteen-digit GOI import license number and the issuance date of this import license, as well as the import recommendation number;
  - State-issued certificates will be accepted by the Indonesian government (GOI). However, GOI requires that a standard certificate form be used, including institution logo/symbol, health certificate number, consistency on whether handwritten or typed, and consistent size and weight paper. If possible, GOI would like to have the certificate electronically to make it easier for checking certificate validity and releasing the commodity faster; and
  - Export declarations by suppliers or manufacturers as proof of compliance are acceptable.
2. Phytosanitary certificates should be in accordance with recommendations of the International Plant Protection Convention (IPPC). Additionally, fumigation certificates are required for products that are considered as a vector of disease, such as soybeans and corn.
3. BPOM requires Certificates of Free Sale for processed food products and food additives. However, they accept the FDA’s Certificate to A Foreign Government, as long as there is a statement stating fit for human consumption or sell freely in the United States or Certificate of Free Sale title in the letterhead. For more info on the certificate, please view the [FDA website](#).
4. In addition, to a veterinary health certificate, imported pet food products must be accompanied by a certificate of origin, certificate of analysis, and certificate of processing. On the certificate of processing, an attestation is made by the exporter, stating that the product is manufactured under a HACCP system and the standard of procedures of sanitary and/or HACCP program is authorized by the relevant organization, such as: the American National Standards Institute
5. Meat and meat products
  - a) The imported meat should be shipped directly from the country of origin to the port of entry in Indonesia unless prior approval is obtained from the Ministry of Agriculture.
  - b) The food contact materials for packing meat must be from the country of origin, display a label, and be constructed from food grade materials and be non-toxic.
  - c) During transportation, meat and meat products with halal certificate should be kept separate from non-halal products.
  - d) Frozen meat products must be transported in a container with a stable temperature between –18° to –22° C).

6. Fresh fruit and vegetables:  
Phytosanitary certificates must be issued by the plant quarantine service from the country of origin and in-transit country.
7. The GOI requires phytosanitary certificates for processed plant products. However, if the authority institution in the exporter country was not able to issue the certificate (shown by a statement letter from the authority in the country of origin), the GOI can accept the export certificate for processed plant products with an explanation of the treatment for the products in the certificate. In addition, the statement letter should also include the address of the authorization office.
8. Based on the Halal Product Assurance Law No. 33/2014, all food and beverage products that are distributed and traded in Indonesia will eventually need to be halal certified. Law 33/2014 came into force on October 17, 2019, beginning a five-year grace period. All food and beverage products must be in compliance with the new law by October 17, 2024. At present, the government is still in the process of establishing new procedures to obtain the halal certificate, including for imported products.

## **SECTION V. OTHER CERTIFICATION/ACCREDITATION REQUIREMENTS**

1. Any entry of animals, materials of animal origin, or products made of materials of animal origin are subject to the following conditions:
  - a) Importers must obtain an import permit from the Ministry of Trade. The permit is valid for 6 months from the issuance of an import recommendation.
  - b) The permit for import of live animals, animal products, and processed animal products that possess risk of zoonosis spread will be released after obtaining an import recommendation (SRP) from the Ministry of Agriculture. The Minister of Agriculture delegates authority on the issuance of SRP to the Directorate General of Livestock and Animal Health Services. Import recommendations can be applied for at any time but must be used to apply for an import permit to the Ministry of Trade within 3 months.
  - c) The permit for import of processed animal products will be released after obtaining recommendation from Head of the National Agency of Drug and Food Control.
  - d) Must be accompanied by a certificate of origin stating that the animals, materials of animal origin or their products came from an area known to be free from quarantine disease in category I and acknowledged by a GOI authorized official if originating from abroad.
  - e) Importation must be made through designated points of entry.
2. Certificate of origin country can be issued by a chamber of commerce or a notary public.
3. Materials of animal origin or products made of materials of animal origin intended for human consumption, including dairy products, but with exception of pork and its products, must also be accompanied by a halal certificate from an accredited overseas halal certifying body. The Indonesian halal authority only requires a copy of the halal certificate. The Indonesia import regulations do not require separate individual halal certificates with each shipment, although port quarantine officers

encourage exporters and importers to submit the original halal certificate to quarantine headquarters and to attach a copy with each shipment. Post recommends that exporters contact their halal certifying body directly to determine if they require certification for each shipment.

4. Prior to import, seed importers must request an import permit from the Ministry of Agriculture (DG of Horticulture, DG of Food Crops, DG of Estate Crops, or DG of Livestock and Animal Health Service) through the MOA's Center for Plant Variety Protection and Agriculture Licensing. A copy of the request must also be sent to the Agriculture Quarantine Agency. The permit is valid for 6 months.
5. Processed products must be registered with BPOM. Product registration requires a letter of appointment from the processed food producer. This letter can be submitted to BPOM directly by an Indonesian distributor. These documents shall be properly notarized and accompanied by a document which verifies that the company is a legal entity in the United States (e.g. a certificate origin from the Chamber of Commerce).
6. In addition, to prove that the Good Processed Food Production Method (CPPOB) has been applied to the processed food product, a certificate of Good Manufacturing Practice (GMP) or Hazard Analysis and Critical Control Points (HACCP) or ISO 22000 or Risk Management Program (PMR) or a similar certificate, which is issued by the authorized or accredited institution and/or from the local government audit result, is required.
7. Other certificates needed for certain food products, including raw materials and food additives, are as follows:
  - a) Composition analysis certificates from producers (per batch) or from accredited laboratories. The certificate must be original and valid for maximum 12 months.
  - b) A Genetically Modified Organism (GMO) or non-GMO statement for food containing potatoes, soybeans, corn, tomatoes and their derivative products (including food additives). However, if the derivatives have undergone further refining processes to the point where the GE material cannot be identified (such as: oils, fats, sucrose, and starch), they do not require any GMO or non-GMO statements.
  - c) Aflatoxin analysis result for nuts and peanut products.
  - d) Halal certificate for products that indicate Halal logo on the label.
  - e) Indonesian National Standard (SNI) certificate and Potassium Bromate (KBrO<sub>3</sub>) Free Certificate for wheat flour.
  - f) Radiation free certificate for products originating from Japan and dairy products originating from Europe.
  - g) 3-Monochloro Propandiol (3-MCPD) residue analysis result for isolated soy protein, soy sauce, and hydrolyzed vegetable protein.
  - h) Original document listing production date and expiration date, as well as batch number/lot number/production code.
  - i) Products with short shelf life, such as: milk and milk products, and other high-risk foods, should have at least 2/3 of shelf life remaining at time of import.
  - j) The SNI certificate for bottled water, cocoa powder, refined sugar, and salt.
  - k) Melamine analysis result for raw material that is suspected contains melamine, such as: milk, flour, protein vegetable, egg and its processed, and for food additives (ammonium bicarbonate).
  - l) Chloramphenicol analysis result for honey.

- m) Formalin analysis result for products that is suspected contains formalin.
- n) Sudan Red analysis result for Oleoresin Capsicum products.

8. In addition to submitting a phytosanitary certificate, the commodities that are imported from FFPO recognized countries must submit prior notice. Prior notice is a statement letter regarding the identity of FFPO that must be completed by the producer or exporter in the country of origin. Prior notice, which must be submitted [online](#), should be issued prior to FFPO product arriving in Indonesia. Prior notice, which accompanies the consignment, must indicate the date and place of loading, date and place of arrival/destination, type of transportation, product name, quantity imported, country of origin, packing unit, import purpose and container's identification number. Additional information regarding FFPO import procedures can be found at GAIN Report [ID1637](#).
9. According to Ministry of Trade (MOT) regulation No. 44/2019, MOT continues to require horticulture products entering Indonesia to be verified by Indonesian surveyors and/or their authorized agents in the country of origin. This verification is not a food safety and/or quarantine inspection, but rather a way for the MOT to oversee the completeness and correctness of import documents, product accountability, and the physical condition of the products.
10. Based on Ministry of Maritime and Fishery (MOMF) regulation No. 11/2019, in addition to a health certificate and certificate of origin (COO), imported fish and fishery products must also be labeled (for packaged form) or accompanied by an invoice/packing list (for bulk form). The products must also include a copy of a certificate of quarantine installation. Additionally, a catch certificate from the authority agency at the origin country is required and must be validated by the Embassy of the origin country in the importing country.
11. The import of processed food for the need of special nutrition, such as: complementary food of breast milk, food specially formulated for athletes, human milk fortification, and food for weight loss programs, must be equipped with a certificate that proves the product had been complied with good manufacturing practices for processed food, issued by the competent authority in the country of origin which has Mutual Recognition Agreement with the GOI.
12. In addition to a health certificate or certificate of free sale that is issued by the authority in the country of origin, an imported organic food must also be accompanied by a transaction certificate, that is issued by the National Accreditation Committee (KAN)'s approved Organic Certification Institute (LSO). This LSO certifies the business unit in the country of origin. The LSO can be local or foreign institute that resides in Indonesia.
13. Besides a certificate of free sale, imported alcoholic beverages require the following documents for registering the products to BPOM:
  - An appointment letter that is authorized in the country of origin by a Public Notary or Chamber of Commerce or Indonesian Embassy in that country.
  - Certificate of HACCP/ISO 22000/GMP/ Food Safety
  - A production flow chart; ingredients info; label design; front and back label; batch code/ lot number/ production code

## APPENDIX I. SAMPLE CERTIFICATES

### Sample “Meat and Poultry Export Certificate of Wholesomeness”

| U.S. DEPARTMENT OF AGRICULTURE<br>FOOD SAFETY AND INSPECTION SERVICE<br>FIELD OPERATIONS<br>MEAT AND POULTRY EXPORT CERTIFICATE OF<br>WHOLESOMENESS   |   | A knowingly false entry or false alteration of any entry on this certificate may result in a fine of not more than \$10,000 or imprisonment for not more than five years or both (18 USC 1001). Additional penalties exist under the Federal Meat Inspection Act (21 USC 611 (a) (1), (2), and (5), 21 USC 678) and the Poultry Products Inspection Act (21 USC 456 (a) (1), (2), and (5), 21 USC 461) for an unauthorized or false alteration or misuse of this certificate. |                   |                               |

**Attestation**

The undersigned certifying official certifies that the product(s) / Pejabat penandatangan sertifikat di bawah ini menyatakan bahwa produk :

- ☐ Finfish / Ikan bersirip      ☐ Mollusca / Moluska      ☐ Crustacea / Krustasea      ☐ Fishery products / Produk perikanan      ☐ Others / Lainnya

Others described above satisfy(s) the following requirements / yang diuraikan di atas memenuhi persyaratan berikut:

- ☐ a. **The Product from each batch / Commodity from population** \*described above have been processed, inspected and graded in (an) establishment(s) that has been approved by and under control of the Competent Authority/ Produk tersebut di atas telah diproses, diinspeksi dan dinilai dalam kondisi yang telah disetujui oleh dan di bawah kendali Otoritas Kompeten
- ☐ b. have been handled, prepared or processed, identified, stored and transported under a competent HACCP and sanitary programme consistently implemented and in accordance with the requirements laid down in Codex Code of Practice for Fish and Fishery Products (CAC/RCP 52-2003) / telah ditangani, disiapkan atau diproses, diidentifikasi, disimpan dan ditransportasikan sesuai persyaratan sanitasi dan HACCP yang diterapkan secara konsisten dan sesuai dengan persyaratan yang ditetapkan Codex Code of Practice for Fish and Fishery Products (CAC / RCP 52-2003)
- ☐ c. **The Product from each batch/ Commodity from population \*** has been found to be free of disease based on sampling and testing method recognized by the World Organisation for Animal Health (OIE) for demonstrating absence of disease and inspected according to the appropriate procedures and subsequently found, at the time of inspection: / Produk / dari setiap batch pasca pengolahan bebas dari penyakit berdasarkan pengambilan sampel dan metode pengujian yang diakui oleh World Organisation for Animal Health (OIE) dan pada saat pemeriksaan:
- ☐ - for crustacean declared free from AHPND, IHNV, YHV, TSV, WSSV, WTD, IMNV, LsNV and Crayfish plague.  
(untuk jenis krustasea bebas dari AHPND, IHNV, YHD, TSV, WSSV, WTD, IMNV, LsNV dan Crayfish plague )
  - ☐ - for cyprinidae declared free from SVC, KHV, RSD and Furunculosis.  
(untuk jenis Carp bebas dari SVC, KHV, RSD dan Furunculosis )
  - ☐ - for tilapia or oreochromis declared free from TILV, IPNV, RSIVD, VNN, RSD, ESC and Furunculosis.  
(untuk jenis Tilapia atau Oreochromis bebas dari TILV, IPNV, RSIVD, VNN, RSD, ESC dan Furunculosis )
  - ☐ - for catfish declared free from CCVD, VHSV, RSD, Furunculosis, ESC and EUS.  
(untuk jenis Catfish bebas dari CCVD, VHSV, RSD, Furunculosis, ESC dan EUS )
  - ☐ - for other fish species, declared free in accordance with the list of fish diseases of OIE relevant to the susceptible species.  
(untuk jenis ikan lainnya, mengikuti daftar penyakit hewan akuatik OIE yang relevan dengan spesies rentan tersebut )
  - ☐ - to show no visible/ clinical signs of diseases /  
tidak menunjukkan gejala penyakit secara visual / klinis :
  - ☐ - The fish must be packaged in shipping containers, holding units and/or conveyances that are either new or cleaned and disinfected. The shipping containers and/or holding units must prevent release of the shipping contents (eg. water or animals) while en route.  
(ikan harus dikemas dalam kontainer pengiriman, kemasan, dan/atau alat angkut yang baru atau dibersihkan dan didesinfeksi. Wadah pengiriman dan / atau kemasan atau alat angkut harus mencegah pelepasan isi pengiriman (mis. Air atau ikan) saat sedang dalam perjalanan ).
- ☐ d. For non edible products have been handled, prepared or processed, stored, transported based on biosecurity principles / produk non pangan telah ditangani, disiapkan atau diproses, disimpan, ditransportasikan berdasarkan prinsip biosekuriti
- ☐ e. ....
