

**Voluntary Report** – Voluntary - Public Distribution

**Date:** April 11, 2023

**Report Number:** IN2023-0030

**Report Name:** Got Milk - India's DAHD Publishes its Integrated Veterinary Health Certificate for the Import of Milk and Milk Products

**Country:** India

**Post:** New Delhi

**Report Category:** FAIRS Subject Report

**Prepared By:** Radha Mani, Agricultural Assistant and Mariano J. Beillard, Senior Regional Agricultural Attaché

**Approved By:** Mariano Beillard, Senior Regional Agricultural Attaché

**Report Highlights:**

On March 31, 2023, India's Ministry of Fisheries, Animal Husbandry and Dairying/Department of Animal Husbandry and Dairying (DAHD), published its integrated veterinary health certificate (VHC) for the import of milk and milk products into India. Conceptualized as a trade facilitation measure, the integrated VHC incorporates the DAHD's sanitary requirements along with those of the the Ministry of Health and Family Welfare/Food Safety and Standards Authority of India's (FSSAI) (national food safety authority) own food safety requirements. The integrated VHC needs to be certified by the exporting country's authority for consignments being exported to India.

**DISCLAIMER:** The information contained in this report was retrieved from the Department of Animal Husbandry and Dairying (DAHD) website. The Foreign Agricultural Service (FAS) Office of Agricultural Affairs at the U.S. Embassy in New Delhi, USDA, and/or the U.S. government make no claim of accuracy or authenticity. The Government of India has not officially endorsed this report. Import approval for any product is subject to local rules and regulations as interpreted by Indian officials at the time of product entry. ## GENERAL INFORMATION

On March 31, 2023, India's Ministry of Fisheries, Animal Husbandry and Dairying/Department of Animal Husbandry and Dairying (DAHD), in reference to **File No. L-11/1/2019-Trade (E-11542)** published its integrated veterinary health certificate (VHC) for the import of milk and milk products into India (see, Appendix I).

Conceptualized as a trade facilitation measure, the integrated VHC incorporates the DAHD's sanitary requirements along with those of the Ministry of Health and Family Welfare/Food Safety and Standards Authority of India's (FSSAI) (national food safety authority) own food safety requirements. The integrated VHC needs to be certified by the exporting country's authority for export consignments being shipped to India.

The two Indian government agencies are aligning their technical aspects and requirements to remove stakeholder (including exporting countries) confusion on the applicability of the VHC. The revised VHC is implemented with immediate effect. However, a transition period of 60-days from the date of publication of the Office Memorandum (OM), is being granted to comply with providing what India is defining as "ease of doing business." The 60-days grace period applies to the arrival date of the consignment.

The full text of the Office Memorandum is available on the DAHD's website located at:

Krishi Bhawan, New Delhi-110 001,

दिनांक / Dated the 31<sup>st</sup> March, 2023.

**OFFICE MEMORANDUM**

**Subject: Veterinary Health Certificate for Import of Milk and Milk Products into India – regarding.**

The Veterinary Health Certificate for import of Milk and Milk Product into India was made in force vide this Department's O.M. No. L-110109(4)/15/2019-Trade (E-14537), dated 24<sup>th</sup> December, 2019. Further, vide this Department's O.M. No. L-110102(1)/1/2018-Trade (E-7526), dated 10<sup>th</sup> August, 2020, it was clarified that the said requirement is applicable for import of milk and milk products into India as included under different chapters for human consumption as food in Indian import policy (whether Sanitary Import Permit is applicable or not).

2. Vide Order No. 1829/Health Certificate/FSSAI/Imports-2021, dated 3<sup>rd</sup> August, 2022, Food Safety and Standards Authority of India (FSSAI) also notified its requirements of "Health Certificate" related to food safety. There was much confusion among stakeholders including exporting countries as well as food importers on applicability of requisite "Veterinary Health Certificate" in this regard, as this Department is regulating import of livestock products including food of animal origin for human consumption under the Live-stock Importation Act, 1898 since inception. Forum of Indian Food Importers also requested to this Department to align the technical aspects between the two Government of India agencies (DAHD and FSSAI).

3. In order to facilitate trade, the integrated Veterinary Health Certificate for import of Milk and Milk Product into India, incorporating DAHD's sanitary requirements and FSSAI's food safety requirements is enclosed herewith which has to be certified by the exporting country along with the consignments to be exported into India.

4. The exporting country may issue single Veterinary Health Certificate, certified by Official Veterinarian or certificate with annexure as per its regulations. The said provision has been kept to facilitate trade considering different regulations in exporting countries.

*Jagan Garg*

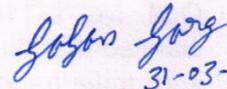

Contd....

5. The revised integrated Veterinary Health Certificate (VHC) will be into force with immediate effect. However, considering the "Ease of Doing Business", it will be completely in operation after transition time of 60 days i.e. Veterinary Health Certificate by DAHD issued on dated 24<sup>th</sup> December, 2019 or integrated VHC from exporting country with consignments will be considered for post-import clearance into India during migration time of 60 days.

6. Any proposal of mutual agreement on the clause (s) related to DAHD's sanitary requirements or FSSAI's food safety requirements shall be enrouted though this Department to avoid ambiguity in future. The food safety related negotiations and agreements shall be carried out by FSSAI and will keep DAHD informed about it. However, the decision on any proposal of mutual agreement on Veterinary Health Certificate for export of milk and milk products into India will be taken by this Department as per mandate given by Government of India, as well as considering holistic approach.

7. This has the approval of the Hon'ble Minister for Fisheries, Animal Husbandry and Dairying.

**Encl: As above.**
