Food Processing Ingredients

Food Processing Ingredients 2013 Report for Panama

Approved By:

Kelly Stange
Agricultural Attaché

Prepared By:

Maria Victoria Guardia,
Administrative Assistant

Report Highlights:

Minor edits have been made from last year's report, as most information contained in 2012 Food Processing Ingredients report is still applicable. Company profiles have been updated as some local companies have been sold and begun operating under different company names or brands. The food processing ingredients market is estimated at \$110 million, with U.S. products leading with an approximate 65 % share of the market. The beverage and food industries constitute one of the main manufacturing and export sectors of the economy, and the Trade Promotion Agreement (TPA) facilitates investment opportunities.

Post:

Panama City

SECTION I. MARKET SUMMARY

Panama's food processing industry is not as large as in other Latin America countries; however, it has experienced a steady growth of over 10% during the last couple of years, probably due to the increase in tourism and foreigners relocating to Panama. Even though Panama is a service based economy, there is still growth in this sector and there exists a great opportunity for raw materials in bulk, additives, preservatives, flavorings, vegetable coloring, etc. for the food processing sector.

Panama's total GDP is \$36.25 billion with an annual growth rate of 10.7%, showing a robust growth in a sustainable manner, averaging 7.3% over the past 10 years. Panama has experienced the largest growth in the Latin American region. This growth is mainly due to the Panama Canal and its expansion, banking, the Colon Free Zone, insurance, container ports, flagship registry, construction, real estate, transportation, tourism, telecommunications and trade. Panama has once again exceeded the average economic growth regionally and globally.

Panama has a dollarized economy since 1904, so there are no currency exchange problems. Panama is the major banking center in the region with more than 80 national and foreign banks, and credit can be obtained at competitive market rates. Project financing is available from multilateral funding entities such as the Inter-American Development Bank (IDB), the International Finance Corporation (IFC) of the World Bank, the U.S. Overseas Private Investment Corporation (OPIC) and the U.S. Export-Import Bank, which offers credit guarantees and insurance.

The Panamanian market offers good opportunities for exports of raw materials (meats, poultry, dairy, grains, and others) and specialized food ingredients such as additives, preservatives, and flavorings. There is high demand for high value products and processed food products for the burgeoning tourist industry. Panama was designated the home port for several cruise companies, including Royal Caribbean and the Spanish cruise line Pullmantur, which means more cruises arriving in Panama. There is also increasing demand for non-traditional foods because of growing immigration; many American, Canadian and European retirees move permanently or semi-permanently to Panama, as well as Venezuelans and Colombians who make Panama their temporary residence. Law 41 of 2007 relating to Multinational Enterprises has enticed companies from different countries to establish their regional hubs or headquarters in Panama, bringing in their executives and other employees with their families. Examples of these companies are Dell, Maersk, ADM, Procter and Gamble, Caterpillar, Mars, Adidas, and SAB Miller, among others.

The Trade Promotion Agreement (TPA) between the U.S. and Panama, entered into force October 31, 2012, benefits food and agricultural exporters, giving U.S. products a competitive advantage over other countries, because most processed products, many raw materials and most specialized food ingredients receive immediate duty-free treatment, with most of the remaining tariffs to be eliminated within 15 years. U.S. products are leading the market with a 65% share, and are expected to continue growing at an annual rate of 15%.

Panama has near 140 food processing companies. These include dairy processors, meat and poultry products processors, fishery products processors, fruits processors, beverages and spirits, bakery, snacks, among others.

The food processing ingredients market was estimated at \$107 million in 2012, and it is expected to reflect a 3% growth at the end of this year. The beef, pork and chicken sectors will continue to grow at a 4.6%, 6.2 % and 6.7% rate respectively. The production of beverages, liquor in particular, will grow approximately 6.3%. The production of processed milk has shown an increase of 6 to 6.8%.

The market for imported goods for consumption will continue to grow as a result of the continuous increase in population due to the constant growth of foreign population over the last couple of years due to incoming new businesses and the hiring of foreign executives for the major construction projects and developments being carried out in the country. This multicultural and multiethnic society has created a demand for frozen and refrigerated deli products, ethnic and typical foods of the different cultures residing in the country. Many supermarkets offer a wide range of ethnic food products, including Chinese, Kosher, Spanish, Central and South American and Italian, among others. Growth in the service industries, work schedules, larger female workforce and long home travel distances have also increased the number of people dining out at lunchtime; moreover, this hectic lifestyle has fueled a demand for supermarket made or ready to cook food in individual and family sized portions. Fast food franchise outlets and shopping mall food courts have all experienced significant growth in recent years, and require specially prepared pre-processed food products, and franchise required ingredients.

To cope with this rising demand, to a large extent as a result of the FTAs, and to remain competitive, the industry has made short and long term investments in new plants, equipments and technology, not to mention improvements in the compliance with sanitary, safety and environmental regulations. Many large international conglomerates have bought out or entered into alliance with well-established local companies as part of their strategic globalization program. Such is the case with Grupo Alimenticio Pascual, the country’s main cookie and cracker manufacturer, which was acquired for \$25 million by the Colombian group, Casa Luker; Cerveceria Nacional, with a beer market share of 81%, purchased by SAB Miller; and Grupo Melo, which made a joint investment of \$15 million in a poultry plant, with Tyson Foods during the last years.

Advantages	Challenges
<p>United States - Panama Trade Promotion Agreement (TPA) entered into force on October 31, 2012. U.S. agricultural exports will benefit from the competitive advantages of the treaty, over other countries, because most processed products, many raw materials and most of the specialized food ingredients will receive immediate duty-free treatment.</p>	<p>U.S. food products are not geared for the “traditional” market (over 35,000 mom & pop stores, only in Panama City) which sells items packaged in small sizes. (E.g. individual apples and pears).</p>
<p>U.S. Panama SPS and TBT Agreement entered into force in February 2007, eliminated SPS barriers, thus importing products from the U.S. is now easier than from other countries.</p>	<p>The US faces strong competition in Panama: snacks and processed foods from Central American countries and China; fruits and horticultural products from Chile and Mexico; grains and oilseeds from Argentina, Canada and</p>

	Brazil; meats from Canada; dairy products from Costa Rica, Argentina, New Zealand and Australia.
GDP growth higher than the region's average during the last few years (10.6 % in 2012). Economic future looks promising with expansion of the Panama Canal project leading this trend. Strong financial and transportation sectors facilitate international trade flows.	Prices of some U.S. consumer-ready products are higher than competitor prices. Rising energy costs, commodity prices, and food prices hurt small economies relatively more.

SECTION II. ROAD MAP FOR MARKET ENTRY

A. Entry Strategy

The outlook for imports of food processing ingredients is favorable and the market is very receptive to U.S. products. Having a local distributor is a key aspect of the product entry strategy. Customs clearance is relatively fast and straightforward. Panama has a dollar-based economy, good transportation infrastructure and telecommunication systems, state of the art modern ports and excellent access to shipping and air transportation.

Panama is a very open market and there are no strict distributor protection laws per se. General commercial law would instead govern contracts or relations between the vendor or supplier and the local company.

Price is still the most important buying factor. Most of the consumers look for products which have an acceptable quality level at the most competitive price.

The shipping costs from the United States to Panama are competitive, due to the trade flow of goods through the Panama Canal.

Panamanian regulations allow food product labels to be in English. Stickers favoring breast milk are mandatory for baby food.

U.S. products enjoy a high quality image. There are no import barriers for food processing ingredients; and most of the import duties have been eliminated with the entry into force of the TPA with the U.S. Ad valorem import duties are levied on the CIF value plus a 7% value-added tax. Many food processors prefer using high quality U.S. ingredients and raw materials to ensure compliance with the different health, sanitary, processing and packaging standards and regulations, including those set forth by the Codex Alimentarius, all enforced by the Ministry of Health and the Panamanian Food Safety Authority.

B. Market Structure

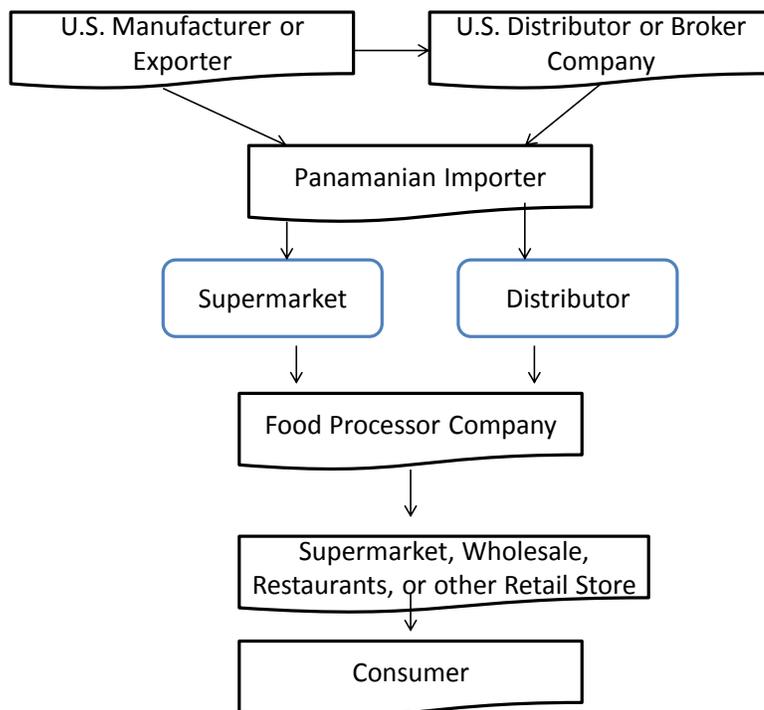

Some U.S. manufacturers are represented by local representatives or commission agents who carry out product promotions, follow up orders and collections, and resolve claims. In Panama there are large

distributors with the capacity to reach many markets without the need of using intermediaries, such as H. Tzanetatos, Tagaropulos, and the major supermarket chains: Super 99, Rey Supermarkets, PriceSmart wholesale, Riba Smith, Xtra and Machetazo. Others opt for direct customer contact facilitated by widespread internet use. Direct mail is also widely used, as is participation in trade and general commercial shows, at local and international levels.

For products with a specific market volume or those requiring a sizable investment, exclusive distributor relationships can be established, by a signed contract or agreement, and usually for a predetermined time period.

U.S. vendors will usually grant credit terms of 30 to 60 days net for established companies with at least three U.S. valid trade references. Other common payment options are letters of credit and advance payment via wire transfers or bank drafts. Local credit references can be obtained from the Panamanian Credit Association (APC in Spanish) by affiliation or a service fee. Sales are conducted with a variety of payment and lease terms including 30 to 90 days credit. Most commercial establishments accept credit cards for retail sales.

Below is the distribution channel flow diagram, showing how products are passed from the U.S. exporter to the food processors and to the final consumer:

C. Company profiles

The following is a table showing Panamanian food processors with their type of products and brand names.

Name	Description of Processing Activity	Brands
1985/Chalet Suizo 6 M S.A.	Importer, processor, restaurant and catering	
Agrícola Carlet		Agrotropical Sostenible
Agrícola Santa Rita S.A.	Sowing, production, harvest of fruits (soursop, avocado, rambutan, Persian lemon, orange)	
Agro Industrias Alimenticias De Veraguas, S.A.	Manufacturer of creams, pasta and other food products	La Parmigiana
Aguas Naturales y Ecológicas	Production and commercialization of natural mineral water	
Ají Panama,S.A.	Processing, commercialization and export of hot peppers	Alimentos Tropicales S.A.
Alcoholes Del Istmo, S.A.	Production of ethyl alcohol (liqueur, rum)	
Alimentos Bemarodi	Production and sale of cheese and other dairy products	
Alimentos Cárnicos De Panama	Meat processing plants, hams and cold meats	Blue Ribbon
Alimentos Del Istmo, S.A.	Food and beverages	Caprichitos, Bolitas, Chitos, Torciditos
American Flowers Shippers, Inc.		
Anef, S. A.	Producer, seller and transportation of agricultural products	
Arce Avicola,S.A	Breeding, processing and sale of eggs and chicken	Del Día
Asociación De Exportadores De Azüero		Dos Valles S.A.
Avícola Athenas	Chicken and eggs producer	
Avícola Chong, S.A.	Production and commercialization of chicken and eggs	
Avícola Franz	Production and commercialization of chicken and eggs	
Avícola Magaly, S.A.	Production and commercialization of chicken and eggs	
Avipac, Inc.	Processing of cold meats, distribution and commercialization of food products (eggs and	Avipac

	chicken)	
Azucarera Nacional, S.A.	Cultivation, production, and export of sugar	Comercializadora Agrícola S.A. Mr. Agro
Azucarera Nacional, S.A.	Cultivation, production, and export of sugar	Santa Rosa
B & L Export And Services, Inc.	Fishing, processing and exports of seafood and shellfish	
Baltimore Spice Panama S.A.	Production of condiments, species, and food additives	
Bambito State Coffee, Inc.		
Bimbo De Panamá, S.A.	Production of bread, bakery and corn bread.	Bimbo, Rapiditas Wraps
Café De Eleta, S.A.	Development of agricultural activities (coffee)	Café De Eleta
Café Sitton, S.A.	Coffee processor, exporter	Café Sitton
Café Volcán Barú, S.A.		
Camaronera De Coclé, S.A.	Research, production and commercialization of packed shrimps, and live larvae	
Caribbean Patty S.A	Manufacturer of food products (pasty)	Jam Patty
Carnes De Coclé, S.A.	Processing and sale of meats and cold meats	First Choice Meat
Casa Ruiz, S.A.	Producers, exporters, and commercialization of coffee, coffee roasters	Café Ruiz
Central Cafetalera S.A.		American Flowers Shipper Inc.
Central Azucarera De Alanje, S.A	Sugar producers	Doradita
Central De Granos De Coclé, S.A.	Processing and commercialization of rice	
Central Food Corp.	Import and making of food products with own brand	Central Food
Central Industrial Chiricana	Production and commercialization of liquors	
Cerro Punta, S.A	Production or distribution of agricultural products (fruits and vegetables)	Cerro Punta
Cervecería Barú - Panama, S.A	Manufacturers and distributors of beer and malt	Panama, Soberana, Cristal, Súper Malta, Heineken, Budweiser, Otros.
Cervecería Nacional, S.A	Manufacturers and distributors of beer and sodas	Atlas, Balboa, Vigor, Pepsi, Nevada, Otros.
Cía. De Mariscos Isla De Las Perlas	Processing and exports of seafood	
Cia. Exportadora Agrícola, Comexa,	Fruit Exports	

S.A.		
Cía. Levapan de Panamá, S.A	Production of fresh and dry yeast, baking powder	Levapan
Cítricos ,S.A.	Orange Products and Coffee	Café De Eleta, S.A.
Coast Eco Timber Panamá	Wood products	
Coca Cola FEMSA De Panama, S.A.	Manufacturing and production of sodas, juices, isotonics and water	Coca Cola, Fanta, Kiss, California, Juizz, Pure Mountain, Dasani
Cocos Del Atlántico	Coconut processing	
Cofrut S.A.	Fruit Products	
Comercial Agrícola Mr. Agro, S.A.		Compañía Ganadera De Coclé
Comercializadora Agrícola Mr. Agro. Sa.	Cultivation, collection, production, packaging and export of fresh fruits and vegetables	
Comercializadora Internacional Panameña, S.A.	Food Products Distributors	
Compañía Agrícola Industrial, Sa	Meat and pork producers	
Compañía Azucarera La Estrella, S.A.	Production, investigation, and commercialization of sugar cane (molasses and alcohol)	
Compañía Ganadera De Coclé		Agrícola Carlet S.A.
Conservas Panameñas Selectas, S.A.	Production of juices, jelly, jam, and tomato products	Del Prado
Continental Fruit De Panamá, S.A.		Latin Fruit
Cooleche	Milk production	
Coopemapachi	Production of oil palm trees	
Cooperativa De Cacao, R.L.	Cacao producers	
Cooperativa De Mercadeo Ucape., Rl.	Cooperative of food producers	
Cooperativa De S/M Cacao Bocatoreña, R.L.	Cooperative of cacao producers	
Cooperativa De Servicios Múltiples Bananeros Del Atlantico, R.L.	Cooperative of banana producers	

Cooperativa De Servicios Múltiples Juan Pablo XXIII, R.L	Production and commercialization of chicken and eggs	
Cooperativa La Solución		
Cooperativa Rvdo. Domingo Basierra, S.A.	Yucca, yam, and dasheen producers	Comexa S.A.
Corporación Frutera Del Pacífico, S.A.	Fruit producers	
Costa Sur Export, S.A.		Asociación De Exportadores De Azuero
D' Melissas Fresh Fruit Company, S.A.		
Dalemar Seafood Inc.	Processor, importer of fish and seafood	Panamá Seafood, Ultramar Seafood, Boca Chica
Dana Internacional, S.A.		
Deli Fish Panama, S.A.	Seafood and fish processor	Deli Fish
Distribuidora Dos Pinos De Panama	Producer and exporter of dairy products (milk, cheese, butter, yogurt, ice creams)	Dos Pinos
Docha Tropical, S.A.		
Dolce Pineapple Co. Inc.		
Donvid Export & Import, S.A.		Fenix Business Inc.
Dos Valles S.A.	Production and commercialization of nontraditional agricultural products (squash, melon, watermelon, zucchini, dasheen, yam)	Dos Valles S.A.
Edanjo, S.A.	Production and commercialization of chicken and eggs	
Empresa Mixta Bananera, S.A.	Banana growers	
Empresas Melo, S.A.	Value added products, chicken, seafood and vegetables	Melo
Ernesto Berard, S.A	Manufacturing and distribution of cold meats, fresh and smoked meat	Berard
Esteban Duran Amat, S.A.	Coffee production and commercialization	Café Duran
Estrategias y Restaurantes	Seller of poultry products (chickens and eggs)	
Exportadora Canajagua S.A.		Cooperativa Agropecuaria De S.M El Progreso

Exportadora Canajagua S.A.		Fincagro S.A.
Exportadora Canajagua S.A.		Terminal Panameña Export, S.A.
Exportadora Canajagua S.A.		Costa Sur Export, S.A.(Cosur)
Farallón Aquaculture, S.A.	Nauplii lab, shrimp farm, seafood processing plant	Farallón, Afrodisia, Portobello
Fenix Business Inc.		
Finca Agroexportadora Doña Esperanza S.A.		
Finca Avícola Santa Librada, S.,.A.	Production and commercialization of chicken and eggs	
Fortunato Mangravita, S.A.	Production and distribution of meat	Fortunato Mangravita
Frutas Del Atlantico		Frutas Del Atlántico
Frutas Del Oriente S.A.		
Ganaco, S.A.	Bovine and ovine breeding	
Ganadera Karla Mary	Bovine breeding	
Ganadería De Coclé, S.A.	Cattle and pork fattening, production and commercialization of nontraditional products	
Garrido Coffee Highland, S.A		Dolce Pineapple Corp. Inc.
Garsavi Fruits, S.A.		Garsavi Fruits S.A.
Gisela Santa María De Mayorca		Emilson Omar Sanchez
Global Foods, S.A.		Ucape
Global Metals & Commodities		
Global Prime Resource Inc.		
Gold Mills De Panama	Flour processor (creams, syrup, pastas)	Gold Mills
Golden Fruit, S.A.		Panafruit S.A.
Green Belt Panamá, S.A.		
Grimer S.A.		
Grupo Campesino Pacheco S.A.		
Grupo Campesino Pacheco S.A.		Global Foods
Grupo Panalag -	Production, processing, exports of seafood &	

Unión Inc.	fish	
Grupo Sidat, S.A		
Grupo T.W.T. Inc.	Fishing, processing and exports of sea products (breaded seafood)	
Habaneros De Panamá S.A.		
Hacienda Los Guayacanes, S.A.	Production and commercialization of chicken and eggs	
Hacienda Valle Rico Exports		
Harinas De Istmo, S.A.	Flour production for bread and bakery industry	Harina Del Istmo
Helados La Italiana, S.A.	Manufacturer of dairy products (ice cream and ice cream bars)	La Italiana
Hermanos Motta	Stockbreeding, agricultural production, agricultural industry (meat, corn, rice)	
Highland Coffee Growers, S.A.		Asociación De Usuarios Del Sistema De Riego Remigio Rojas
Indo Pan Ventures Inc.		
Industrias Alimenticias Ricas Viandas	Production of bread, desserts and sweet bread	Rimith
Industrias Lácteas, S.A.	Processing and commercialization of dairy products and juices	Vita Slim, D'oro, Estrella Azul, Vaquita
Industrias Momi, S.A.	Production of bakery, confectionery and food products	Momi
Industrias Panama - Boston, S.A.	Process and refines oils, butter and lard	Pabo, Cascade, Yo Soy, Supreme
International Woodwork Corporation Inc.		
Inversiones Bongo	Stockbreeding	
Inversiones Del Mar Pacifico	Fish processing	
Inversiones Para El Desarrollo De Coclé, S.A.		Ramafruit Internacional S.A.
Inversiones Salim S.A.		
Inversiones Wong Sang		
Invertours Del Caribe Panamá, S.A.		

Isabela Seafood Corporación	Processing, packaging and distribution of fresh fish products	
Julmax Export S.A.		
Kawi Logistics, S.A.		
Kokoa Del Istmo S.A.		
Kotowa State Coffee	Coffee production	
Lago Sirino, S.A.	Purchase, sell, dry, store, mill, and process all kind of grains	Lago Sirino
Latín Fruit, S.A.	Production and sale of fruits and tubers (yucca, melon, papaya)	Exportadora Canajagua
Lavery Panama, S.A.	Production of food products (cheese, margarine and butter)	Cre moso
Liang Rong Xi		
Life Blends	Production and preparation of natural juices and related products	Life Blend
Macello, S.A.	Slaughterhouse for bovine and porcine animals	
Madexport Panamá. S.A.		
Mama Cata S.A.		Dos Valles S.A.
Manantial De Volcán, S.A.	Production of juices, water and sodas	
Mara Pan	Manufacture of bread products	
Margarita Villages, S.A.		Productos Pitti Panamá S.A.
Mariscos Charlie Tuna	Processing and sale of smoked and canned tuna	
Mega Variedades Fruit Corp		
Melones Del Arco Seco	Cultivation and export of melons, watermelons, and squash	
Mensabe Import & Export, S.A.	Production of export of yam, squash, dasheen, melon, watermelon, coconut	
Molino Lezcano	Rice Mill	
Mundex, S.A.		
Natural Food Corporation		
Nestlé Panama, S.A.	Production and commercialization of food products (coffee, beverages, dairy products)	Nestlé
Nilka Sugely Rivera Castillo		
Nutrición Animal, S.A		

Ocean Farms Inc.	Processing and packaging of shrimps	
Omar Sanchez		
Orozco, S.A.		
Palo Alto Agroindustrial, S.A.	Coffee production	
Panadería Y Dulcería La Sabrocita, S.A.	Production of bread and bakery	La Sabrocita
Panafruits Export, S.A.		Concepción Navarro
Panafrut, S.A.	Processing, commercialization and export of cashews	
Panama Blue	Bottling of spring water	Panama Blue
Panamá Fruit Producers, S.A.		Ag & Land, S.A.
Panamá Fruit Producers, S.A.		Agroexport Fruit Inc.
Panamá Fruit Producers, S.A.		Campechano Tropical Fruit
Panamá Fruit Producers, S.A.		El Establo
Panamá Fruit Producers, S.A.		Faspa S.A.
Panamá Fruit Producers, S.A.		Fenix Business Inc.
Panamá Fruit Producers, S.A.		International Quality Foods Of Panamá S.A.
Panamá Fruit Producers, S.A.		M.G. International
Panamá Fruit Producers, S.A.		Panamá Fruit Producers, S.A.
Panamá Fruit Producers, S.A.		Panamá Golden Packer
Panamá Fruit Producers, S.A.		Verba Odrec S.A.
Panama Pacific Packer's Inc.	Shrimp farm	
Panamá Squash		Dos Valles S.A.
Pan-El Export & Import, S.A.		
Panespan Holding, S.A.		
Paramo International S.A.		
Piladora San Juan, S.A.		Dos Valles S.A.

Pineapple La Chiricana, S.A.		
Potuga Fruit Company, S.A.		
Prilad	Processing and distribution of cheese	Don Pedro Quesos, Queso Prensado
Procesadora De Granos Chiricanos	Processing, cleaning, drying, milling of grains	
Procesadora Marpesca, S.A.	Processing, storing and distribution of perishable food (shrimp and fish)	
Procesadora Mónica, S.A.	Production and commercialization of chicken and eggs	
Procter & Gamble Interamericas De Panama, S.A	Production, representation and distribution of natural dietary products, organic or food and pharmaceutical products in general	Eagle Snacks, Café Folgers, Millstone Coffee, Olean/Olestra, Puritan Oil
Productos Alimenticios Pascual	Production of crackers, cookies, candy, snacks, pasta and distribution of food products	La Suprema, Roma, Maria, Sándwich, Otros.
Productos Kiener, S.A.	Production, distribution and sale of meat products (spicy sausages, cold meats, sausages)	Kiener
Productos La Doña	Food industry (seasonings, creams, spices, pastas, sauces)	La Doña
Productos Lácteos San Antonio S.A	Production of all kinds of milk, ice cream, beverages, cheese, and dairy products	Superior, Belford
Productos Liana	Pasta	
Productos Lili, S.A	Production of marshmallows, meringue and other sugar products	
Productos Pitti Panamá, S.A.		
Productos Toledano	Distribution of agricultural industry products, chicken and eggs	Toledano
Proluxsa	Production of food products (vinegar, soy sauce, condiments, juices)	Proluxa
Promarina, S.A	Production of flour and fish oil	
Provedores Agropecuarios Hnos. Pérez, S.A.		Cofrut S.A.
Queseria Dalys	Production of white milled and pressed cheese	
R.C Agro Supplies, S.A	Production of dasheen, coconut, watermelon, squash	
Ramafrut International, S.A.	Production and distribution of agricultural products (melon and watermelon)	Dos Valles S.A.
Riba - Smith, S.A	Food Retail, food imports and food production	Riba- Smith, Rica
Roberto Antonio Rivera Castillo		

Rocmar, S.A.	Fish processor	
Samuray Mar, S.A.	Processor of fish and seafood	
Santeña Export Import		Dos Valles S.A.
Sarasqueta y Compañía, S.A.	Grains production	
Sea Deli Panama, S.A.	Processing, packaging and exports of shrimp	
Sociedad De Productos De Primera	Food Processing Dairy and Foodstuff products (cheese, milk, eggs)	Bonlac
Suramerican International Import And Export, S.A.		
Tabascosta, S.A.		Cultivos Panameños S.A.
Tabcos De Chiriquí, S.A.		
Tasty Food Industries	Production of bread, bakery and cookies	Tasty Choice
Tegasa Investmen, S.A.		Panamá Caribbean Tobacco
Teodoro Garrido		Corporación Frutera Del Pacífico
Terminal Panameña Export, S.A.		
Tesa Coffe, S.A.		Dos Valles S.A.
Tierra Del Caribe, S.A.		
Tropical De Alimentos, S.A.	Processing of fruits and vegetables for the production of juices and pulp	Tropidali
Tropical Delights, S.A.		
Tropical Fruit Company, S.A.	Cultivation, packaging and distribution of pineapples	
Truchas De Bambito, S. A.	Producer, processor, sales and exports of trout	
Vanesa Real, S.A.		
Varela Hermanos, S.A.	Liquor production	Seco Herrerano, Ron Abuelo, Gin Caballito
Veggiefresh Invest Corp.		
Ventas Liang Huang		
Vigomar,S.A.	Production, breeding and exports of shrimp	
Vitanova Holding	Processing of dairy products, especially fresh ethnic cheese	Quesos Chela
Zentai International		

Inc		
Zuellen,S.A.	Production of bread and bakery	Santa Librada

D. Sector trends

Because of the highly competitive nature of the food processing industry, and to comply with the various sanitary and safety regulations, factories strive to invest in modern, innovative and efficient packing, packaging and labeling solutions. Manufacturing is all carried out by the private sector, according to the following end-user groups:

- **Beverage Industry**

This is one of the largest sub-sectors. The two largest breweries were both acquired by multinational corporations: Cerveceria Nacional by SAB Miller and Cerveceria Baru-Panama by Heineken. They also operate as bottling plants for Coca-Cola, Pepsi-Cola and a number of other soft drinks, non-alcoholic beverages, bottled water, juices and breakfast drinks. There are four liquor and spirits manufacturers, led by Bacardi Central America and the Varela Group.

- **Dairy Industry**

Milk production is concentrated in three provinces: Chiriqui, Herrera and Los Santos. Many milk producers are associated with cooperatives. The three largest dairies are Industrias Lacteas, owned by Grupo FEMSA of Mexico; Cooleche, owned by Dos Pinos of Costa Rica; and Bonlac, purchased by Sociedad de Alimentos de Primera (Casa Luker) from Colombia. They manufacture and distribute a wide range of dairy products, including high quality milk, ice cream, frozen desserts, butter, and yogurt, cream, and fruit drinks. They frequently introduce new products into the market. Like other sub-sectors of the food industry, manufacturing of dairy products such as cheeses is dynamic and well diversified, ranging from cottage to large scale agro-industrial corporations such as Nestlé, which has a large production facility in Panama for evaporated and condensed milk.

- **Meat Processing Industry**

Poultry is the top meat staple of the local diet and processing is very advanced. Consumers buy both whole chickens and pieces, most of which is locally produced. The main producers are Toledano and Melo (Tyson), a multi-product company and one of the country's largest exporters.

Pork is Panama's second favorite meat. Under the TPA, the United States has a tariff rate quota (TRQ) of pork meat of 1,600 metric tons with an annual growth of 6% of the quota, while the import tariff is phasing out in fifteen years. Panama also imports annually 300 metric tons from Costa Rica, and has other international commitments.

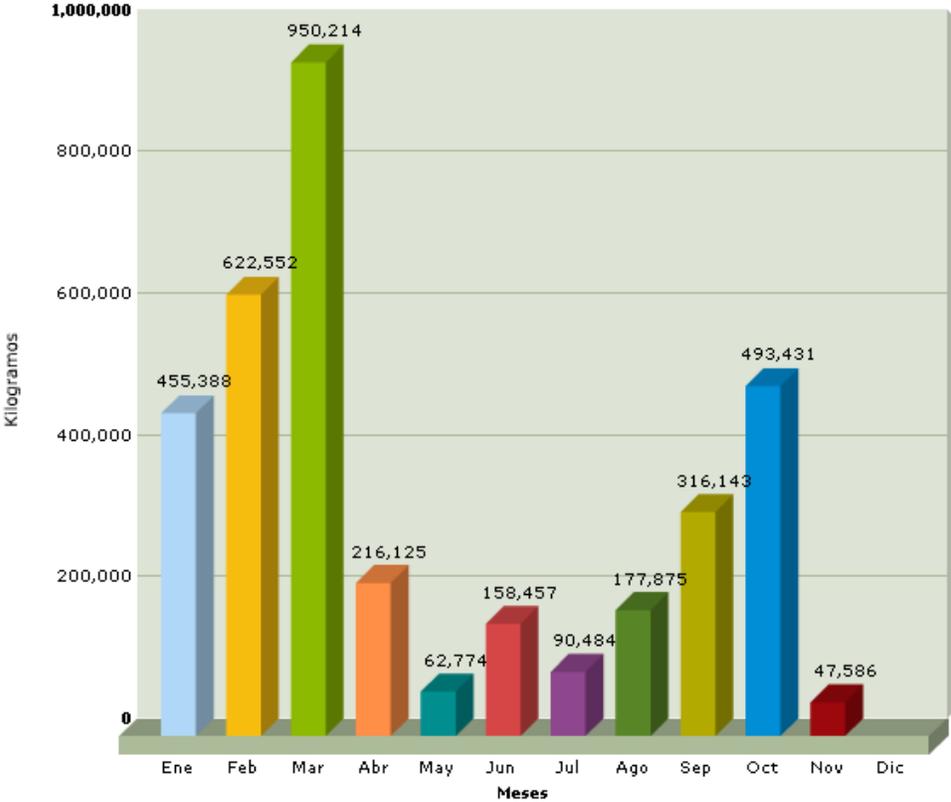

U.S. pork has price and product advantages over local and Central American pork. Panamanian pork is normally sold in carcass, not in cuts; meat processors rarely are able to find local pig fat and pork chops. Nor is there a local standard for cuts and products. Thus, Panamanian meat processors welcomed the sanitary equivalence agreement between Panama and the United States, which entered into force in

December 2006, which allowed them to import a wide variety of different pork cuts from the U.S. (Local meat processors also import Canadian pork chops, fat back and center-cut belly, because of their lower prices.)

Pork picnics and shoulders are a traditional Christmas holiday food. The local supermarkets always negotiate holiday purchases of picnics with the local industry in July and August. The meat processors are used to purchase picnics, pig fat, and other products from January to June of each year, because at that time the international prices of pork are low. Therefore, the industry purchases the TRQ for pork meat in the first half of the year, but delays the actual import until the last quarter (October, November and December).

The meat processors have decided to increase their processed products lines in order to be more competitive. Therefore, they welcome U.S. trade missions which bring new product prospects.

The following is a chart on monthly pork imports in Panama as of this date.

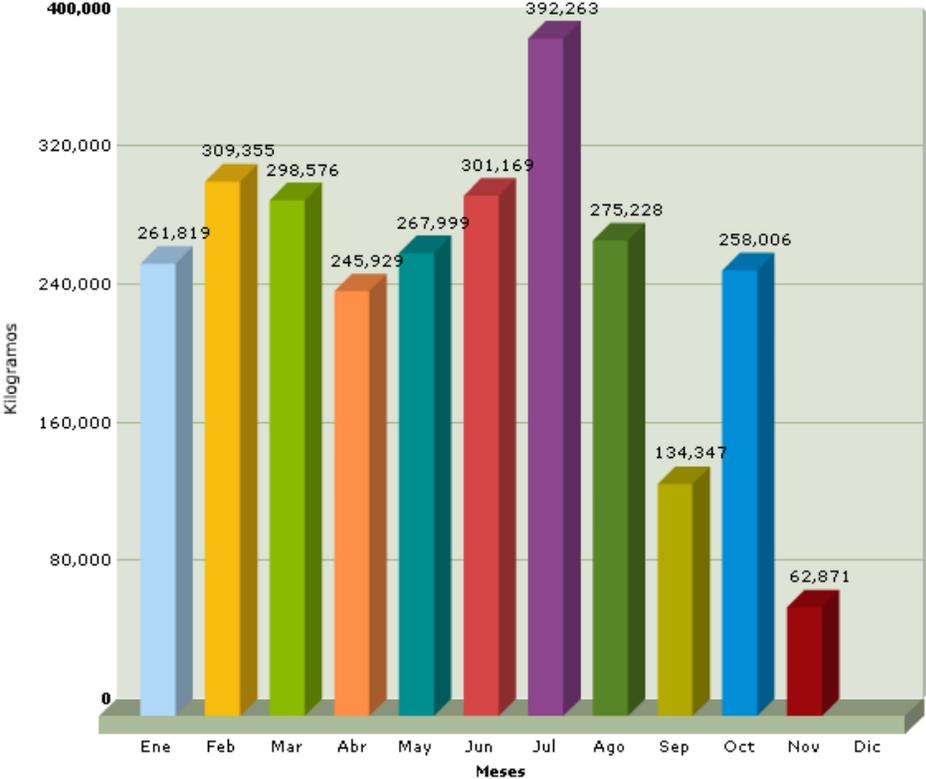

Pork (fresh, chilled and frozen) imports in Panama: Calendar year 2013, by month and by kilograms.
Source: Panamanian Food Safety Authority

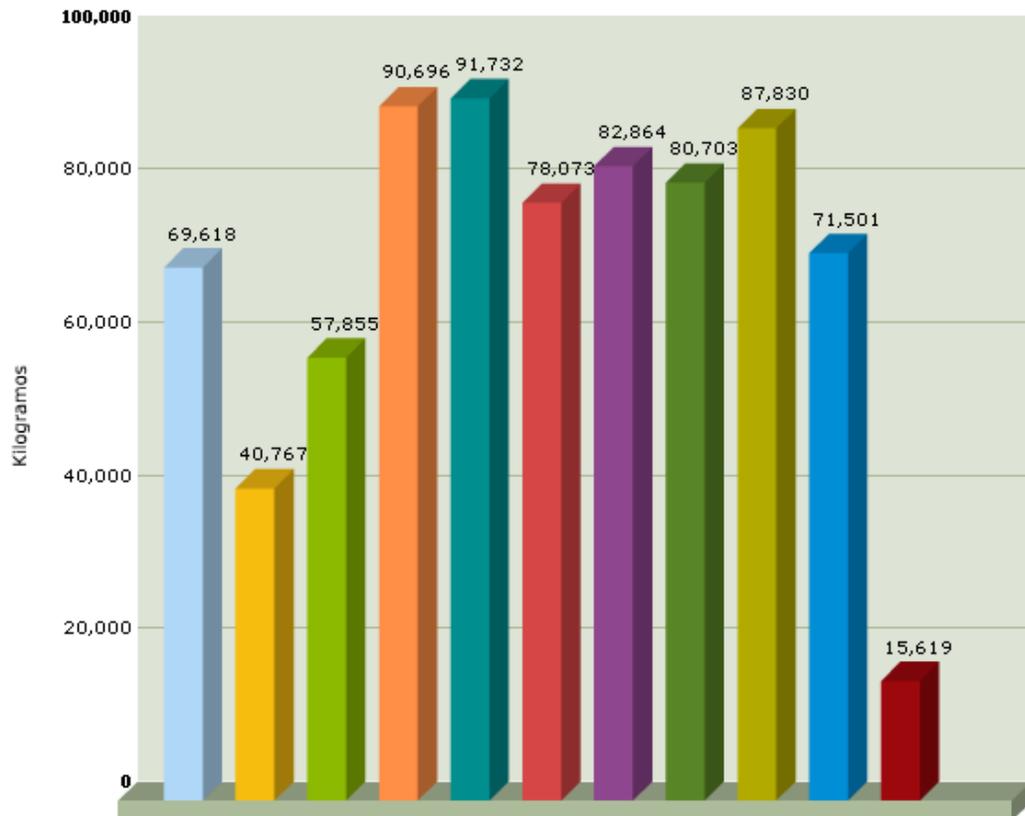

The local meat processing industry is focused on local retail chains, and not on HRI or exports. The average low-income Panamanian consumer prefers to purchase sausages and ham rather than beef due to beef's higher price. The national standard for deli meats requires a minimum of 12.5% animal protein, compared to a minimum of 10% in other countries. Standards allow the use of no more than 5% of soy protein isolate. Meat processors import mechanically deboned chicken and turkey meat for the production of deli meats.

The food service sector is supplied by imported processed meats, mainly from the United States, and cured hams from Spain and Italy.

The following charts show bovine meat fresh and chilled, and frozen and packed imports in Panama as of this date.

Bovine meats (fresh and chilled) imports in Panama: Calendar year 2013, by month and by kilograms.
Source: Panamanian Food Safety Authority

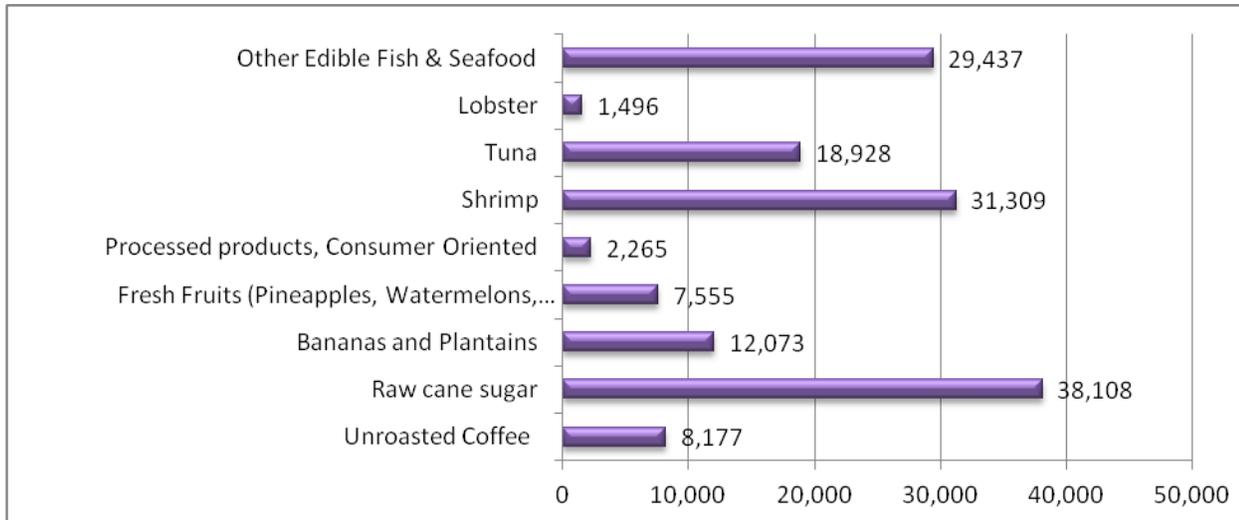

Beef cuts (frozen and packed) imports in Panama: Calendar year 2013, by month and by kilograms.
Source: Panamanian Food Safety Authority

The main local meats processors are:

- Carnes de Cocle (Brand: American Star)
- Alimentos Cárnicos de Panama (Brands: Blue Ribbon and Berard)
- Productos Kiener (Brand: Kiener)
- Riba Smith (Brand: Rimith)
- Avipac (Brands: Montuno, San Angel and Campo Fino)
- Grupo Melo (Brand: Melo)
- Productos Toledano (Brand: Toledano)
- Arce Avícola (Brand: Del día)
- Deli Grecia (at the Province of Veraguas)
- Campañola (at the Province of Veraguas)

Seafood products represent the country's leading export group, and most processing is performed in the ports of Vacamonte and Puerto Armuelles. Efforts are made to manufacture value-added products, in addition to frozen products, as a means of increasing profits and competing globally.

The chart below shows the importance of Panamanian exports to the United States of seafood and fish products, including shrimp, yellow fish tuna, lobsters and other edible fish and seafood.

Major Panamanian Food Exports to the United States, in thousands of dollars. Calendar year 2011.
Source: U.S. Bureau of the Census Trade Data

There is no official update of the above chart. However, below is a comparison chart of the percentage of variation of Panamanian exports to the United States during the last four years in thousands of dollars.

Product	Percentage of Variation		
	2012/2011	2011/2010	2010/2009
Shrimp Exports	7.4	6.6	-19.4
Yellow Tuna and filets	-28.7	-60.6	-52.2
Shrimp Larvae	2,982.0	41.6	-23.6
Banano	-0.5	32.4	4.9
Melon	3.9	-57.4	-64.0
Watermelon	-4.3	-55.3	-17.6
Pineapple	17.4	6.6	-19.4
Fish Flour and Oil	36.9	40.8	-38.2
Bovine Meat	35.5	25.6	3.4
Gold	-0.8	66.0	339.3
Yellow Tuna and filets	-28.7	-60.6	-52.2
Others	8.6	21.1	5.3

- **Agro Industry**

Bananas, fresh fruits and sugar are the main agricultural exports. Sugar production is carried out in the central provinces and refined by Azucarera Nacional, Santa Rosa, Ofelina, La Estrella and others. Rice production is also significant and is mostly grown in Chiriquí, as is coffee, while corn is mainly harvested in the central provinces. Many farmers have reinvested in non-traditional products such as watermelons, cantaloupes and papaya. Companies like Nestlé manufacture a large variety of tomato products and canned tropical juices.

- **Baking Industry**

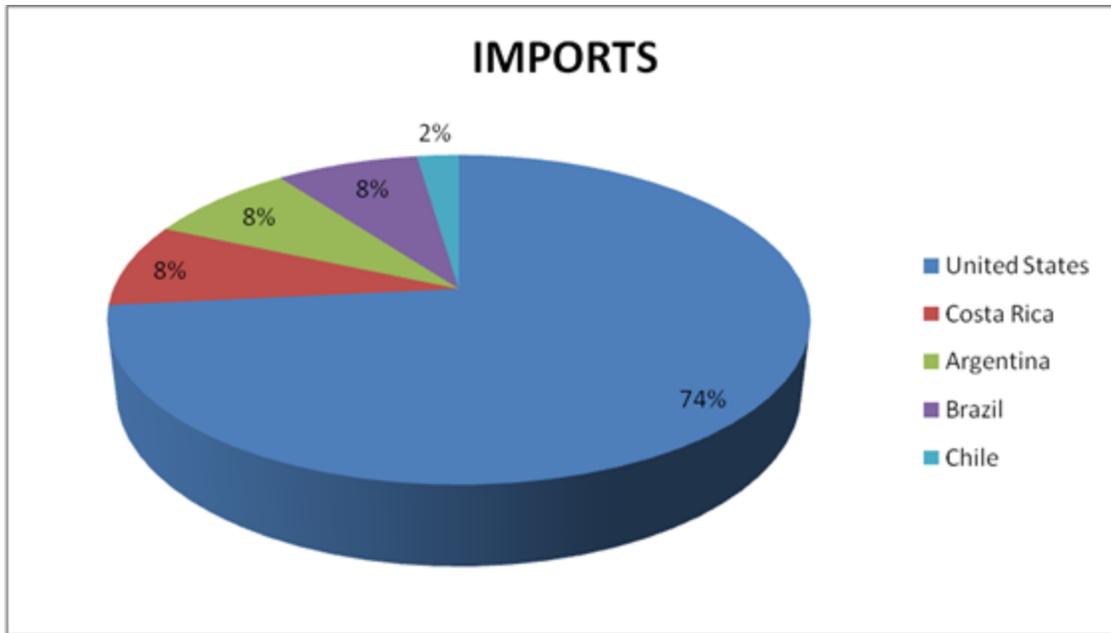

Four flour mills, Harinas Panama, Harinas del Istmo, Gold Mills and Oro del Norte, supply the burgeoning bread and pastry trade, which ranges from large scale bakeries such as Bimbo of Panama to neighborhood bread shops. There are more than 200 bakeries just in Panama City. Following their U.S. counterparts, many supermarkets have also installed in-store bakeries.

SECTION III. COMPETITION

Well-known U.S. and international suppliers marketing in Panama include ConAgra, Kraft, Tyson Foods, McCormick, Kellogg's, Mars, Coca Cola Co., Procter and Gamble, Unilever, Johnson & Johnson, among others.

While U.S. products account for the major share of the import market, a wide range of food processing ingredients is available from other countries, and meet diverse purchasing criteria for pricing, quality, after-sales service, delivery time and financing. There are about ten importers/distributors with trained personnel constantly calling on the various end-users, offering their products and services.

Food processing ingredients manufactured in the U.S. are perceived as being of higher quality, while those of other countries are considered to be highly competitive in price, but of lower quality and lacking adequate after-sales service. Certain industries prefer purchasing from countries renowned for their specialties; i.e., beers from Germany, sausage and pasta from Italy, etc.

Major Food Exporters to Panama, in percentage of the market share. Calendar year 2013

SECTION IV. BEST PRODUCT PROSPECTS

The Panamanian market offers good opportunities for additives, preservatives, flavorings, vegetable colorings, sauces, condiments, grains (wheat, yellow corn, and rice), semi-processed products, such as soybean meal and soybean oil, and a wide range of high quality consumer oriented products, such as bakery products, snacks, ready-to-eat products, beverages, breakfast cereals, sugar confectionary and food preparations, gourmet food products, low-fat, sugar-free and fat-free food products, because most of the food products found in the supermarkets are not processed locally.

For example, with the TPA now in force, there is a potential market opportunity for U.S. exporters of "Glucose & glucose syrup, containing in dry state less than 20% fructose" (HTS code 1702.30), because with the TPA the glucose and glucose syrup from the United States is tariff-free, while Panama's applied rate on imports of glucose syrup for the rest of the world is 30%.

SECTION V. POST CONTACT AND FURTHER INFORMATION

USDA /Foreign Agricultural Service
Arlene Villalaz, Agricultural Specialist
Phone: (507) 317-5297
Email: arlene.villalaz@fas.usda.gov
Embassy Address: Calle Demetrio Basilio Lakas, Building No. 783,
next to Colegio de las Esclavas, Clayton, Panama City.
