

**Voluntary Report** – Voluntary - Public Distribution  
2022

**Date:** October 03,

**Report Number:** QA2022-0001

**Report Name:** Qatar Lifts Ban on US Poultry and Products from All States Due to HPAI

**Country:** Qatar

**Post:** Dubai

**Report Category:** Poultry and Products

**Prepared By:** Mohamed Hamza

**Approved By:** Lucas Blaustein

**Report Highlights:**

On September 29, 2022, Qatar’s Ministry of Public Health published updated precautionary requirements for some imported foodstuffs lifting a ban on U.S. poultry and poultry products from all U.S. states. This announcement dropped a previous June 1st, 2022, decision that banned poultry meat (fresh, chilled, frozen, and processed), poultry products and table eggs, excluding heat-treated products, from all U.S. states due to an ongoing outbreak of Highly Pathogenic Avian Influenza (HPAI). The publication also includes changes for other trade partners. A copy of the publication is attached to this report.

**Report Summary:**

A copy of Qatar's publication can be found here:
