### **Rice Price - Weekly**

#### **Situation for the Week Ending November 12, 2010**

**Approved By:**

Roy J. Taylor

**Prepared By:**

Quan Tran

**Report Highlights:**

Price offers from exporters were unchanged last week despite the continued increase of local paddy rice prices. Commercial rice exports have virtually halted due to how uncompetitive the prices are relative to other export sources, especially Thailand.

Local paddy prices moved still higher from already very high levels, due to continued localized supply shortages.
